About the project

Beach Walk is an elegant residential complex of 80 residences located on the artificial island of Dubai Islands on the shores of the Arabian Gulf. The façade of the tower is made in a modern style and is decorated with snow-white panels combined with horizontal decorative elements. Smooth lines of glass terraces and ring-shaped protruding balconies resemble the curves of the sea, emphasizing the coastal atmosphere.

Location

Beach Walk Residences are located on the artificial archipelago of the Dubai Islands. The complex can be reached by both water and land transport. You can enjoy a coastal holiday at Dubai Islands Beach, located a 12-minute walk away. You can replenish your groceries or update your wardrobe at the One Deira Mall shopping center.
